BARNET.

The Whippoorwill

Those who read Mr. Horton's list of bird visitors in St. Johnsbury in the last issue of this paper, will remember that he marks the whippoorwill's visits as rare in that vicinity. Barnet abounds with them. From early June till summer wanes we hear their wild, weird notes. It seems they love the valley of the Connecticut river and make it their summer home for back from the river a few miles they are never heard. We seldom see them, although a few years ago one came and sang on the top of a near neighbor's house and we had a good view of the bird. About five years ago one came for ten consecutive nights and sung her evening song. A lady from Orange county, who was visiting in our home at the time had never heard one before although she has past three score years. It was considered an ill omen by superstitious people for the whippoorwill to sing near a house but no harm came from its rare visits. They are among the latest birds to arrive as they are seldom heard before the first of June and never after dog days.

A Top Notcher.

In these days of hustle and enterprise in the newspaper world the public is surprised at nothing in the way of startling improvement, but the new color supplement of The Boston Sunday Herald has very early after its inception taken the title of "top notcher." Its initial issue was a marvel of excellence, but last Sunday's "Fun," with its colored cartoons, beautiful pictures and clever stories of wit and humor, was a circulation builder of the highest quality. "Haraldville," with its colored buildings to cut out and set up, presented the paragon and church, and this embryo town for boys and girls has caught the fancy of all New England. The dainty colored song sheet had a catchy "coon" song to offer for the music lovers. "Fun," the new colored supplement of The Boston Sunday Herald, is superior to any of the weekly comic papers, and the very flattering way in which it has been received by its publishers, who have for years given to their patrons "New England's Greatest Newspaper," The Boston Herald.
